## WORK EXPERIENCE

### Product Engineer

#### CreditMantri Finserve Private Limited

10/2021 - Present

An online marketplace that helps people compare and choose financial products such as loans, insurance, and credit cards.

##### Achievements/Tasks

- Developed and Maintained modules for analyzing customer data and helping customers to select the best financial products such as loans, and credit cards.
- Integrated 50+ top banks APIs with consolidated data on our website with the Client's requirement to ensure seamless operations.
- Participate in the complete software development lifecycle, including performance analysis, design, development, and testing.
- Investigated issues and defects to determine the root cause of a problem and formulated suitable solutions accordingly.
- Projects:** Pre login Flow Revamp | 3rd party API integration for data consolidation | Preapproved Revamp | CRM | Alternate data-based on credit score | Dashboard optimization.

## PROJECTS

#### Customer Relationship Management (02/2022 - 03/2022)

- Build an application where a business owner can allow permission to the users for accessing features.
- Technologies used - HTML, CSS, Node.js.

#### Tickets Registration Form (08/2020 - 10/2020)

- Build an application for railway ticket registration with a customer email address and phone number.
- Technologies used - PHP, HTML, CSS, MySQL, REST API.
